Webinar on "Nursery Management: Its Types and Role in Horticulture Development"

Department of Agriculture

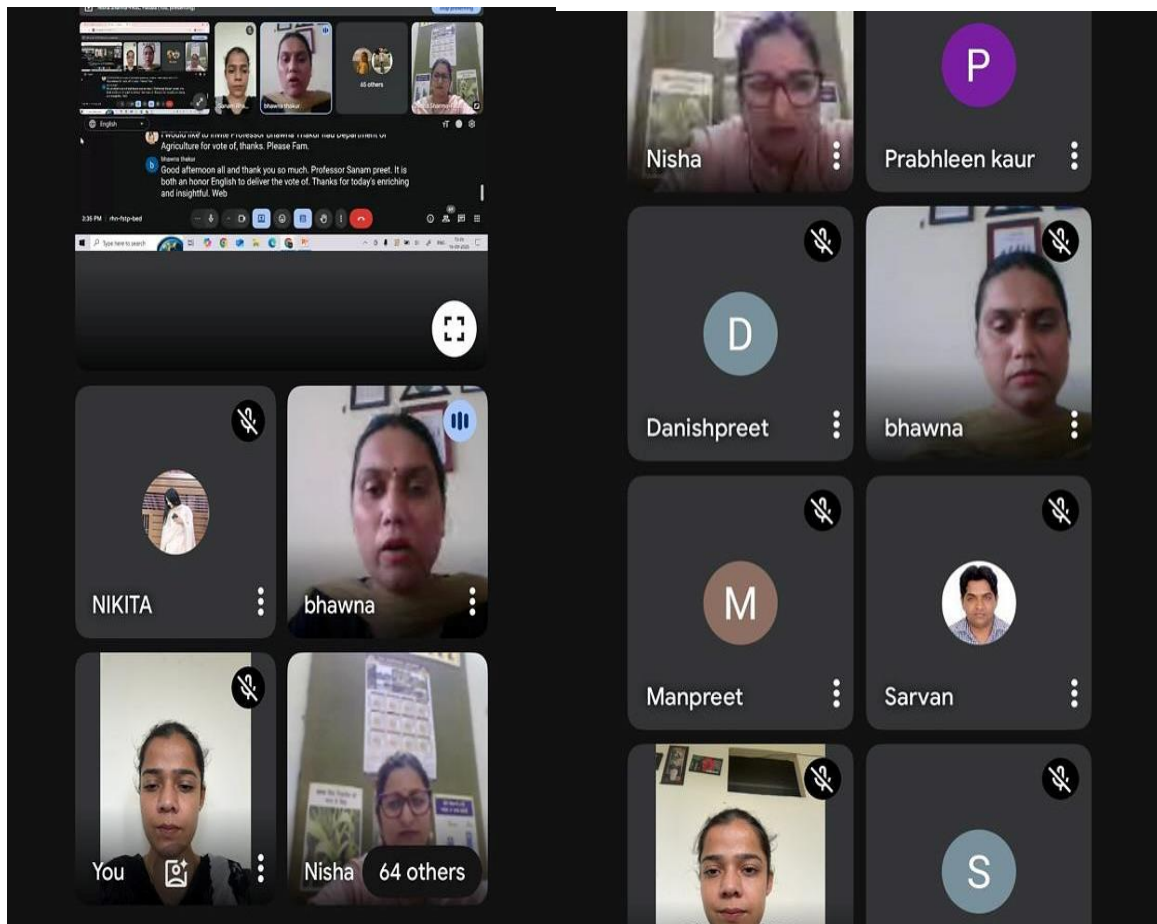

The Department of Agriculture, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib, in collaboration with Institutions's Innovation Council organized an webinar on "Nursery Management: Its Types and Role in Horticulture Development" on 16th September 2025, under the DBT Star Status. The session was led by Dr. Nisha Sharma, District Extension Scientist (Vegetable Science), Punjab Agricultural University (PAU). Dr. Sharma shared her expertise on various types of nurseries, modes of plant reproduction, and their vital role in the advancement of horticulture. She emphasized the significance of efficient nursery management practices in enhancing plant quality, productivity, and sustainable horticulture development. Students from B.Sc. (Hons.) Agriculture participated actively in the session, engaging with the speaker and gaining valuable practical insights along with academic enrichment. The event was organized under the guidance of Prof. Bhawna Thakur, head, Department of Agriculture and coordinated by Prof. Sanampreet, assistant Professor, Department of Agriculture. Principal Dr. Jasvir Singh appreciated the initiative and commended the efforts of the faculty. He encouraged students to embrace emerging opportunities in horticulture, particularly by adopting innovative nursery and cultivation techniques to meet future agricultural challenges.

No. of students participated: 116
