

### **Anardana (Pomegranate seed) Powder prepared by B.Voc. Food Processing**

The Department of Agriculture, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib prepared pomegranate powder on 06 September, 2021. The activity was carried out under the guidance of Prof. Bhawna Thakur, Head, Department of Agriculture and co-ordinated by Prof Aditi and Prof Kamlesh Kumari. The students of B.Voc. Food Processing prepared the pomegranate seeds powder from the organically cultivated pomegranate plant in the college's experimental field with the help of laboratory equipments. Principal Dr. Jasvir Singh highly praised the efforts of Department of Agriculture and the students in such activities with great emphasis on the role of food processing in entrepreneurship development and value addition of food products. The anardana powder was sold in the college to faculty members and students. These training activities help in enhancing the student's skills and contribute in providing more employment opportunities in the future by which the students can make themselves financially stable.
