Report

Kisan Mela, Ropar

Upon the invitation from “Agriculture and Farmer Welfare Organization”, the Department of Agriculture, SGTB Khalsa College participated in district level Kisan Mela at Ropar on 20th September 2019. The department exhibited a stall in the Kisan Mela displaying drift wood, medicinal plants and diseases of important agricultural crops (paddy) under the supervision of Dr. Renu Thakur (HOD). The staff members of agriculture department (Ms. Kamlesh, Ms. Aditi, Mr. Gurpreet Singh and Ms Kirandeep Kaur) and students made the farmers and participants aware about Agromatic Medicinal Plants, Agro-forestry/Agronomy, forest products and processed food products. Under the food processing section, jam and pickles prepared by the students were displayed and their manufacturing process was explained by the co-ordinating faculty.

Faculty and agriculture students during the exhibition

The main objective of the participation was to build a communication channel between students and farmers and spread awareness about crop diseases and their solution, medicinal plants and agronomy. The farmers were also informed about the latest techniques and technology to deal with all the challenges faced by the farmers.
