

Successful Cultivation of Green Manure Crop- Dhaincha

Department of agriculture

Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib

One week workshop for village farmers was organized by the Department of agriculture of SGTB Khalsa College, Sri Anandpur Sahib, entitled “Successful Cultivation of Green Manure Crop- Dhaincha” at agricultural farm, Department of Agriculture village Jindwari on dated 6.7.2022 to 13.7.2022. In this workshop farmers got familiarized with the techniques of successful cultivation of Green Manure Crop- Dhaincha and its benefits of growing. Local farmers participated in this event with keen interest and they were encouraged to grow such crops to maintain the soil fertility which is needful under present situations where the soil health depleting at faster rate. Prof Kamal Kumar HOD of the agriculture Department is the coordinator of the workshop and Principal Dr. Jasvir Singh also encouraged the farmers for the Dhaincha so that the soil health sustained as it is an important component of sustainable agriculture
