

Preparation of Different Types of Pickles without Any Chemical Preservatives

Department of agriculture

Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib

The students of B.Sc (Hons) Agriculture final year, Department of agriculture successfully prepared different types of pickles (Apple, Beet root, Pear, mixed vegetables, okra, Lime, Lemon, chilly, cucumber etc) without any chemical preservatives on dated 28.7.2022. The students also prepared *aam papad* and they also standardized the ingredients under the guidance of Prof Kamal Kumar (HOD) and Prof Kirandeep Kaur. They were effectively guided to prepare flow charts and scheme for successful preparation of such different types of pickles. Students gain hand on experience by making different types of pickles. On this occasion Principal Dr Jasvir Singh praised the efforts of students and staff and said that such type of activities helps the students to attain self employment for their futuristic career. Prof Gurbinder Kaur, Prof Mandeep Kaur, Prof Gurpreet Singh and Prof Sanampreet Kaur were also present on this occasion.
