Feedback Analysis Report (2023-24)

Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib has designed mechanism to collect feedback from its stake holders such as Students, Teachers, Parents, Employer and Alumni through online Google form for the Academic Session 2023-2024. Student feedback about Curriculum increases their satisfaction level.

Feedback is an important part of the learning cycle, and student learning outcome is linked to institutional effectiveness. A reliable feedback system can support institutions in collecting and understanding information for faculty development portfolios. Unlike other assessment methods feedback allows students to take an active role in their learning. The feedback analysis is a mechanism to check the effectiveness of teaching learning process along with administrative activities taking place in the institute. From analysis, the strengths and weaknesses can be traced and remedial measures can be taken to improve the working of Institute. It also enables a teacher to see how teaching practice can be improved, and which teaching and learning strategies are more likely to be effective. Structured and Unstructured feedbacks are conducted to assess the satisfaction of various stakeholders concerning syllabus and its outcome. We value feedback and treat it with highest respect, courtesy, value and confidentiality.

Feedback from final year under-graduate and post-graduate students was collected. The feedback was collected from students through structured Performa on curriculum, teaching learning process, evaluation process, infrastructure facilities etc.

Suggestions from former students have proved to be highly beneficial for the Institute. During Parent Teacher Association meeting, parents provide valuable suggestion for improving Teaching, Administration the Library and infrastructure facilities Teachers provide valuable inputs on how to improve the curriculum teaching Facilities and the institute's collaboration with them.

Student Feedback (2023-24)

To ensure quality of education among students, a feedback a conducted at the end of each semester on two Questionnaires comprising of 30 different parameters, which are analyzed and utilized for generating various kind of facilities to the students. Each variable has been evaluated on the scale of 8, where 7-8 stand for 'Excellent' and 1-2 stands for 'Average'. The feedback in the form of Google Form was taken from students and on an average more 600 responses were obtained for each criterion.

Parents Feedback (2023-24)

Parents are very important part of college. The feedback from parents provides the opportunity to convey their ideas on the quality of their ward's learning experience and their syllabus. If they feel satisfied, they can show their satisfaction regarding their ward's performance. We have received feedback of 267 parents for the current academic year. The feedback is based on syllabus studied by the students. We have designed a feedback form on curriculum development. The analysis of the feedback of the parents is given below.

Parameter1: The Syllabus details are easily accessible

A teacher training program is a program that equips teachers with techniques and modern pedagogy strategies that helps them to better connect with, manage, and teach their students in a manner which ensures that all students are learning and benefitting. Through a holistic teacher training program teachers, especially those who have been teaching for many years and therefore are not likely to be aware of updated practices and methodologies, learn new methods and techniques which they can implement in the classroom to better educate their students. Not all traditional teaching methods are ineffective. The above chart states that 97.1% teachers are satisfied with the opportunity of attending training, FDP, Refreshers Course and Workshop.

Most of the teachers approx. 99% are highly satisfied that enough care are taken while framing the syllabus to prepare all necessary academic documentation like POs, COs and PSOs.

The Employers were largely satisfied with the students' performance. They suggested for providing additional inputs to subject knowledge in the form of skill development and practical exposure to industry. Though employers were largely satisfied with the students' performance they also suggested for making efforts to improve English Communication skills of students. However, they had some suggestions such as holding training programmes for grooming of students, study of market demand to incorporate courses into the curriculum. Necessary steps have been taken to take care of this.
