

An Educational trip to Ranthambore National park (21st to 23rd February, 2020)

The PG department of Zoology organised an educational trip to Rajasthan for graduation and post graduation students where they visited ‘‘Ranthambore National park’’ and tiger reserve . the main motive of this trip was to show animal diversity to students. This trip also provided a chance to students to witness the wild species roaming freely in jungle. Furthermore, the glorious view of rare accumulation of wild animals at park gave an enthralled experience to students. Students also visted Ranthambore Fort which showed that along with wildlife , culture and traditions of Ranthambore also hold a massive significance . Jantar Mantar was also visited by students. Around 32 students were part of this trip.

Professors in charge: DR Amandeep kaur, Prof. Anshita, Prof. Mancy
