

## Educational Tour to Panjab University Chandigarh

Department of Chemistry organized an educational visit of the students to "Panjab University Chandigarh" on 24th Feb. 2023 under DBT Star Status Scheme. During the tour the students visited "Sophisticated Analytical Instrumentation Facility (SAIF)" where a live demonstration of sample analysis using NMR and Gas Chromatography techniques were delivered to the students. The technical staff described the details of the principle behind each technique. The detailed instrumentation was also discussed with emphasis on various components of the instruments. The students were enriched with the practical applicability of the instruments, the results of which are used by them for structure elucidation of compounds in theory and practical. Later on a visit to the Central Library of the University was arranged where students got a chance to witness the rich resources of the library.
