

### Field visit to Sangatpur and adjoining areas (28.01.2025)

P.G. Department of Botany organised a field visit to Sangatpur and adjoining areas on 28.01.2025, for the students of BSc. Medical, Semester- IV & Semester- VI, MSc. Botany, Semester- II & Semester- IV. Students collected samples of wild plants belonging to different taxonomic categories. Students also visited the area along the Satluj river and observed the hydrophytes growing in the river. Dr. Ravi Kant, Dr. Sartaj Singh and Prof. Gurleen Kaur helped the students in the identification of plants and provide information about their medicinal and ecological importance. Principal, Dr. Jasvir Singh encouraged the students to participate in the local field visits and enrich their knowledge about the plants growing in their locality.

**Some glimpses of the Field Visit are:**
